

Webd 168 – Lesson 12 Assignment - Web Accessibility

1. Wave Results

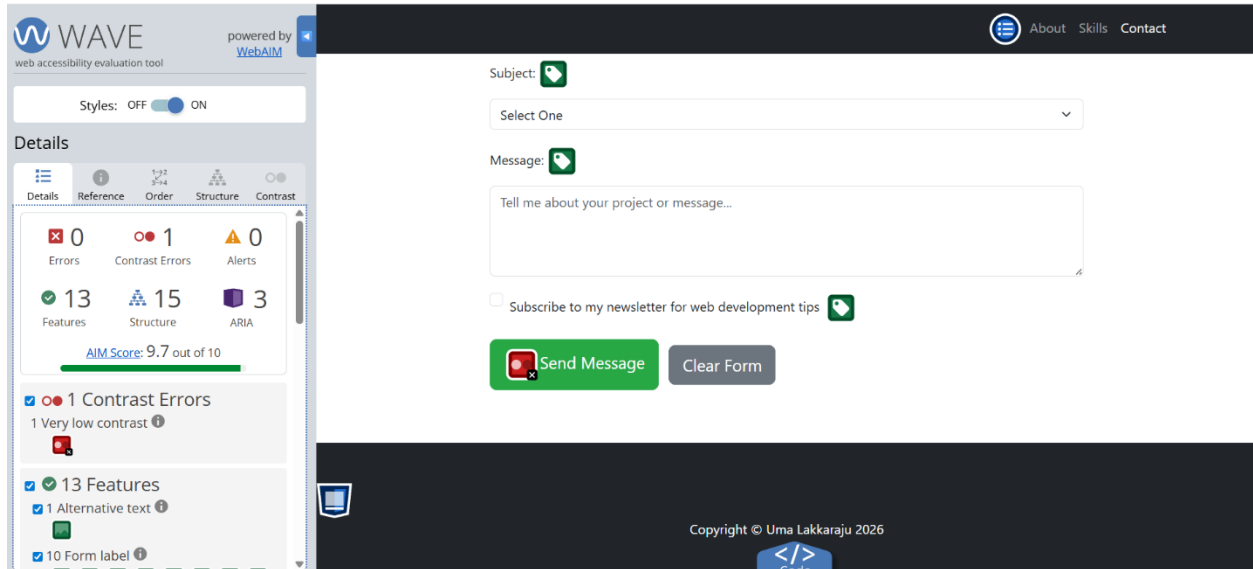

Figure 1 – Contrast Error

2. Contrast Checker Results after fixing the Send Message button

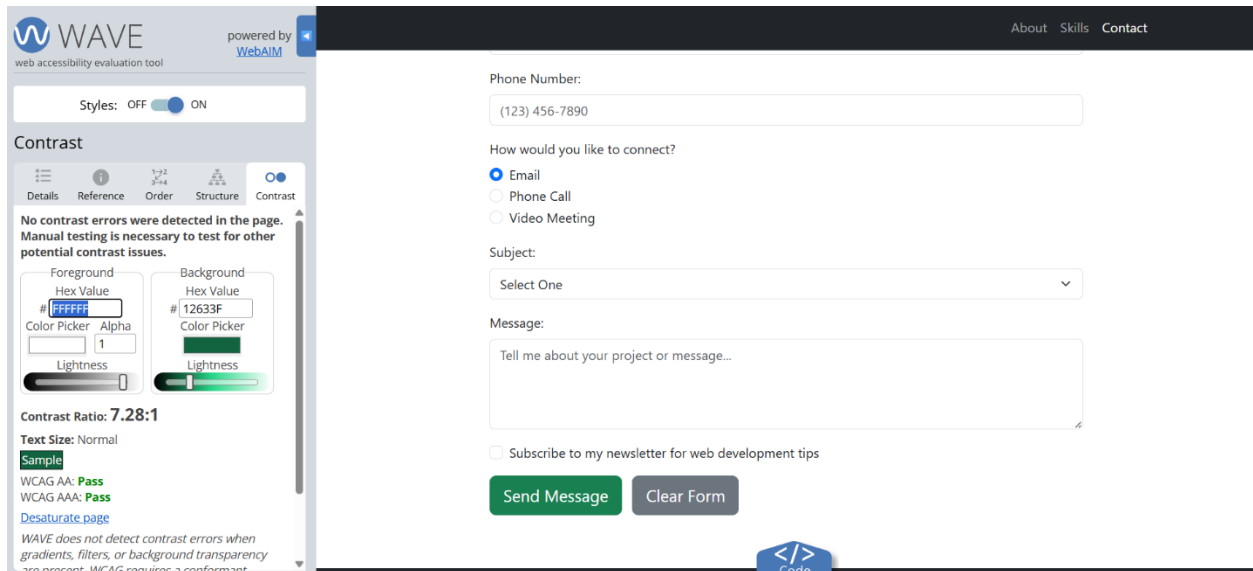

Figure 2 – Corrected Contrast Ratio

I identified a contrast error using the Wave accessibility tool and verified it with its built-in contrast checker. After adjusting the colors with the contrast picker, the updated contrast ratio reached 7.28:1, meeting both WCAG AA and AAA requirements and improving overall readability.
